

Demonstration of Proposed Features

Date	03 July 2026
Team ID	
Project Name	Smart Lender Loan Eligibility Prediction System
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Registration & Login	Secure registration and login using email/password with JWT authentication.	Implemented	Yes	Core functionality demonstrated successfully.
2	Loan Application Form	Applicants can submit loan details (income, loan amount, credit history, property area).	Implemented	Yes	Fully functional and tested.
3	Data Preprocessing	Cleans and validates applicant data before ML prediction.	Implemented	Yes	Demonstrated with sample datasets.
4	ML Prediction Engine	Predicts applicant credibility using XGBoost model.	Implemented	Yes	Demonstrated with real-time predictions.
5	Decision Dashboard	Displays prediction results to credit officers for faster approvals.	Implemented	Yes	Demonstrated during stakeholder review.
6	Reporting & Analytics	Generates reports on approval rates, risk scores, and prediction accuracy.	Partial	Yes	Basic reporting demonstrated; advanced export pending.

Feature Implementation Summary:

Total Features Proposed	
Total Features Proposed	6
Total Features Implemented	5.5 (Reporting partially complete)
Total Features Demonstrated	6
