

Customer Journey Map

Date	29 June 2026
Team ID	
Project Name	Smart Lender Loan Eligibility Prediction System
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	Applicant submits loan application details online	System processes data using ML model	Credit officer/analyst reviews prediction and finalizes decision
Touchpoint <i>What part of the service do they interact with?</i>	Smart Lender web application form (Flask UI)	Backend ML pipeline (XGBoost model)	Dashboard/approval interface
Customer Thought <i>What is the customer thinking?</i>	"I hope my loan gets approved quickly."	"This system seems accurate and fair."	"This prediction helps me decide faster."

Customer Feeling <i>What is the customer feeling?</i>	Nervous about approval	Confident when prediction is clear	Relieved when decision is faster and data-driven
Process Ownership <i>Who is in the lead on this?</i>	Applicant provides accurate data	Smart Lender ML system processes inputs	Credit officer/analyst validates and approves/rejects
Opportunities <i>How can we improve this stage?</i>	• Simplify loan application form • Enable automated document uploads	• Improve model accuracy with larger datasets • Add explainability features (why approved/rejected)	• Provide risk scoring dashboard • Enable batch evaluation for high-volume periods
